DESINFECT SURFACE SHK+

TECHNICAL PRODUCT DATA SHEET · Disinfection for plumbing, heating and air conditioning

Product type	Biocidal product (disinfectant)
Registration	BAuA reg. no.: **N-105780** Marketable under the transitional provisions (Art. 89 Regulation (EU) No 528/2012)
Active substance	Active chlorine released from hypochlorous acid
Labelling	Signal word: **Warning** Hazard statement: H290 May be corrosive to metals. Precautionary statements: P234 Keep only in original packaging. P390 Absorb spillage to prevent material damage. For details see the safety data sheet (SDS).

Area of application

Disinfection of tools, installation materials, pipe sections, fittings, taps, work equipment and surfaces in the area of drinking water systems (plumbing trade, water supply).

Spectrum of activity

Undiluted: bactericidal, yeasticidal and virucidal (EN 16777: adenoviruses and noroviruses, 5 minutes, 20 °C).
Diluted up to 1:3: bactericidal and yeasticidal (EN 13697, 5 minutes, 20 °C).
Undiluted also effective against Legionella (EN 13623).

Product features

pH-neutral, vegan, free from alcohol, aldehydes, quaternary ammonium compounds (QAC), dyes and fragrances. Breaks down into mineral degradation products after use. Gentle on materials.

Dosage & application

For disinfection, apply undiluted (ready to use). For routine disinfection, it can be diluted up to a maximum of 1:3 (1 part product to 3 parts water); the contact time is then 5 minutes. Wet tools, materials or surfaces completely (e.g. by spraying or immersion) and keep them wet during the contact time. Rinsing is not required. Contact time for undiluted use according to the label.

Available pack sizes

1,000 ml round bottle, 5 l canister.

Important notes

Use biocides safely. Always read the label and product information before use. Keep out of reach of children.
